BRADY BEFORE

BRADY AFTER

Talk about a Bad Hair Day!

Meet Brady - this poor dog was a stray that was transferred to EBHS when his stray hold expired. The pictures could not possibly do justice to how badly matted this dog was. He could barely move, he smelled terribly, he could not see a thing or go to the bathroom because he was matted from nose to tail!

Many people do not realize that bad matting is not just bad looking, but has adverse effects on an animal's health. Often times, skin starts to get wound up into the mats and then becomes torn open which creates infected wounds.

Thankfully, the great folks at [Portable Pet Groomers](#) came by to help free him from his prison. He lost over 24 pounds after he was finished being shaved! Thanks so much to Shelley and Sareena for volunteering to take such good care of Brady on such short notice! They knew when we said it was an emergency we were not kidding!

Now Brady needs to be neutered and he will be made available for adoption. He has lived a neglected life and we hope to find him a forever home that will always take care of his grooming needs! He is an absolute doll! Even while he was being shaved down he just kept giving the groomers kisses. We know they were kisses of thanks!
